

OVERVIEW OF PROGRAMS

GRANT/LASALLE

Catahoula Hummingbird and Butterfly Garden

This site is a pollinator project that is apart of Kisatchie National Forest. Master Gardeners oversee the maintenance and planting of this bed.

Camp Grant Walker Gardening Projects

There are various projects that the Grant/Lasalle Master Gardeners work on at Camp Grant Walker. This is the 4-H camp that hosts summer camps and various activities throughout the year. Various landscapes for signage and entrance are maintained with beneficial plants around the camp by the Master Gardeners. The master gardeners are also helping with the installation, maintenance and educational components of the garden track at camp that 4-H youth will participate in.

Mrs. Jo's School Garden

This project is located at a local elementary school to help educate teachers and students about growing plants.

Nolley Nature Trail

The Nolley Nature Trail is a site maintained in Lasalle Parish. It began as a collaboration with the Nolley Church and the NRCS and was later picked up as a project by the Grant/Lasalle Master Gardener Association. Various native plants are continuing to be identified on this site and the development of the walking trail is on going such as benches being added thanks to the help of the local Boy Scout group.
